SAFETY DATA SHEET WINSOR & NEWTON ARTISTS' WATER COLOUR (PAN)

According to Regulation (EC) No 1907/2006, Annex II, as amended by Regulation (EU) No 453/2010

SECTION 1: Identification o	SECTION 1: Identification of the substance/mixture and of the company/undertaking	
1.1. Product identifier		
Product name	WINSOR & NEWTON ARTISTS' WATER COLOUR (PAN)	
1.2. Relevant identified uses of the substance or mixture and uses advised against		
Identified uses	Fine Art Painting	
Uses advised against	No specific uses advised against are identified.	
1.3. Details of the supplier of	of the safety data sheet	
Supplier	ColArt International Holdings Ltd. The Studio Building 21 Evesham Street London W11 4AJ United Kingdom +44 (0)208 424 3200 R.Enquiries@colart.co.uk	
Manufacturer	ColArt International SA 5 Rue Rene Panhard Z.I .Nord 72021 Le Mans Cedex 2 +33 2 43 83 83 00	
1.4. Emergency telephone r	number	
Emergency telephone	+44 (0)208 424 3200 This telephone number is available during office hours only 09:00 to 17:00 GMT Language English.	
SECTION 2: Hazards identi	fication	
2.1. Classification of the substance or mixture		
Classification Physical hazards	Not Classified	
Health hazards	Not Classified	
Environmental hazards	Not Classified	
2.2. Label elements		
Hazard statements	NC Not Classified	
2.3. Other hazards		

This product does not contain any substances classified as PBT or vPvB.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

DIBORON TRIOXIDE	<
CAS number: 1303-86-2	EC number: 215-125-8
Classification Repr. 1B - H360FD	Classification (67/548/EEC or 1999/45/EC) Repr. Cat. 2;R60,R61
The Full Text for all R-Phrases	s and Hazard Statements are Displayed in Section 16.
Composition comments	Contains SVHC, CAS 1303-86-2≥ 0.1%. For Viridian and Terre Vert Only.
SECTION 4: First aid measure	es
1.1. Description of first aid me	asures
General information	If in doubt, get medical attention promptly. Show this Safety Data Sheet to the medical personnel.
Inhalation	No specific recommendations. If throat irritation or coughing persists, proceed as follows. Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. Loosen tight clothing such as collar, tie or belt. Get medical attention if any discomfort continues.
Ingestion	No specific recommendations. If throat irritation or coughing persists, proceed as follows. Rinse mouth. Get medical attention if any discomfort continues.
Skin contact	No specific recommendations. Rinse with water. Get medical attention if any discomfort continues.
Eye contact	Rinse with water. Get medical attention if any discomfort continues.
Protection of first aiders	Use protective equipment appropriate for surrounding materials.
I.2. Most important symptoms	and effects, both acute and delayed
General information	The severity of the symptoms described will vary dependent on the concentration and the length of exposure.
nhalation	No specific symptoms known. Spray/mists may cause respiratory tract irritation.
ngestion	No specific symptoms known. May cause discomfort if swallowed.
Skin contact	No specific symptoms known. May cause discomfort.
Eye contact	No specific symptoms known. May be slightly irritating to eyes.
1.3. Indication of any immedia	te medical attention and special treatment needed
Notes for the doctor	Treat symptomatically.
Specific treatments	No special treatment required.
SECTION 5: Firefighting meas	sures
5.1. Extinguishing media	
Suitable extinguishing media	The product is not flammable. Extinguish with alcohol-resistant foam, carbon dioxide, dry powder or water fog. Use fire-extinguishing media suitable for the surrounding fire.
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
5.2. Special hazards arising fr	om the substance or mixture
Specific hazards	Containers can burst violently or explode when heated, due to excessive pressure build-up

Hazardous combustion products	Thermal decomposition or combustion products may include the following substances: Harmful gases or vapours.	
5.3. Advice for firefighters		
Protective actions during firefighting	Avoid breathing fire gases or vapours. Evacuate area. Cool containers exposed to heat with water spray and remove them from the fire area if it can be done without risk. Cool containers exposed to flames with water until well after the fire is out. If a leak or spill has not ignited, use water spray to disperse vapours and protect men stopping the leak. Control run-off water by containing and keeping it out of sewers and watercourses. If risk of water pollution occurs, notify appropriate authorities.	
Special protective equipment for firefighters	Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing. Firefighter's clothing conforming to European standard EN469 (including helmets, protective boots and gloves) will provide a basic level of protection for chemical incidents.	
SECTION 6: Accidental releas	se measures	
6.1. Personal precautions, pro	tective equipment and emergency procedures	
Personal precautions	No specific recommendations. For personal protection, see Section 8.	
6.2. Environmental precaution	<u>s</u>	
Environmental precautions	Avoid discharge into drains or watercourses or onto the ground.	
6.3. Methods and material for containment and cleaning up		
Methods for cleaning up	Reuse or recycle products wherever possible. Absorb spillage to prevent material damage. Flush contaminated area with plenty of water. Wash thoroughly after dealing with a spillage. Dispose of contents/container in accordance with national regulations.	
6.4. Reference to other section	ns	
Reference to other sections	For personal protection, see Section 8.	
SECTION 7: Handling and sto	rage	
7.1. Precautions for safe hand	ling	
Usage precautions	Read and follow manufacturer's recommendations. Wear protective clothing as described in Section 8 of this safety data sheet. Keep away from food, drink and animal feeding stuffs. Handle all packages and containers carefully to minimise spills. Keep container tightly sealed when not in use. Avoid the formation of mists. May damage fertility. May damage the unborn child. Pregnant or breastfeeding women should not work with this product if there is any risk of exposure.	
Advice on general occupational hygiene	Wash promptly if skin becomes contaminated. Take off contaminated clothing. Wash contaminated clothing before reuse.	
7.2. Conditions for safe storag	e, including any incompatibilities	
Storage precautions	No specific recommendations.	
Storage class	Chemical storage.	
7.3. Specific end use(s)		
Specific end use(s)	The identified uses for this product are detailed in Section 1.2.	
SECTION 8: Exposure Controls/personal protection		
8.1. Control parameters Occupational exposure limits		

DIBORON TRIOXIDE

20 mg/m³ Short-term exposure limit (15-minute): Ingredient comments OES = Occupational Exposure Standard. MEL = Maximum Exposure Limit. 8.2. Exposure controls Protective equipment Appropriate engineering No specific ventilation requirements. controls Eye/face protection No specific eye protection required during normal use. Large Spillages: Eyewear complying with an approved standard should be worn if a risk assessment indicates eye contact is possible. Hand protection Wear protective gloves. The most suitable glove should be chosen in consultation with the glove supplier/manufacturer, who can provide information about the breakthrough time of the glove material. To protect hands from chemicals, gloves should comply with European Standard EN374. Considering the data specified by the glove manufacturer, check during use that the gloves are retaining their protective properties and change them as soon as any deterioration is detected. Frequent changes are recommended. Other skin and body No specific recommendations protection Hygiene measures Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product. Wash contaminated clothing before reuse. Respiratory protection No specific recommendations. Provide adequate ventilation. Large Spillages: If ventilation is inadequate, suitable respiratory protection must be worn. Environmental exposure Not regarded as dangerous for the environment. controls SECTION 9: Physical and Chemical Properties 9.1. Information on basic physical and chemical properties

Appearance	Soluble in water.
Colour	Various colours.
Odour	Characteristic.
рН	pH (concentrated solution): 6-8
Initial boiling point and range	>100°C @ 760 mm Hg
Vapour density	>1.
Relative density	1.5 - 2.5 @ 20.°C
Solubility(ies)	Miscible with water

9.2. Other information

SECTION 10: Stability and reactivity

10.1. Reactivity

Reactivity

There are no known reactivity hazards associated with this product.

10.2. Chemical stability

Stability	Stable at normal ambient temperatures and when used as recommended. Stable under the prescribed storage conditions.
10.3. Possibility of hazardous	reactions
Possibility of hazardous reactions	No potentially hazardous reactions known.
10.4. Conditions to avoid	
Conditions to avoid	There are no known conditions that are likely to result in a hazardous situation.
10.5. Incompatible materials	
Materials to avoid	No specific material or group of materials is likely to react with the product to produce a hazardous situation.
10.6. Hazardous decompositio	n products
Hazardous decomposition products	Does not decompose when used and stored as recommended. Thermal decomposition or combustion products may include the following substances: Harmful gases or vapours.
SECTION 11: Toxicological inf	ormation
11.1. Information on toxicologi	cal effects
Toxicological effects	Not regarded as a health hazard under current legislation.
Acute toxicity - oral Notes (oral LD₅₀)	Based on available data the classification criteria are not met.
Acute toxicity - dermal Notes (dermal LD50)	Based on available data the classification criteria are not met.
Acute toxicity - inhalation Notes (inhalation LC_{50})	Based on available data the classification criteria are not met.
Skin corrosion/irritation Animal data	Based on available data the classification criteria are not met.
Serious eye damage/irritation Serious eye damage/irritation	Based on available data the classification criteria are not met.
Respiratory sensitisation Respiratory sensitisation	Based on available data the classification criteria are not met.
Skin sensitisation Skin sensitisation	Based on available data the classification criteria are not met.
Germ cell mutagenicity Genotoxicity - in vitro	Based on available data the classification criteria are not met.
Carcinogenicity Carcinogenicity	Based on available data the classification criteria are not met.
IARC carcinogenicity	None of the ingredients are listed or exempt.
Reproductive toxicity Reproductive toxicity - fertility	May damage fertility.
Reproductive toxicity - development	May damage the unborn child.

STOT - single exposure Not classified as a specific target organ toxicant after a single exposure. Specific target organ toxicity - repeated exposure Not classified as a specific target organ toxicant after repeated exposure. Spiration hazard Based on available data the classification criteria are not met. Specific target organ toxicant after repeated exposure. Not specific health hazards known. The severity of the symptoms described will vary dependent on the concentration and the length of exposure. Station No specific symptoms known. Spray/mists may cause respiratory tract irritation. No specific symptoms known. May cause discomfort. No specific symptoms known. May cause discomfort. State on and chronic health No specific target organs known. Magestion hazards known. State or entry Ingestion Inhalation Skin and/or eye contact No specific target organs known. State organs No specific target organs known. Magestion Inhalation Skin and/or eye contact Cotoxicity Not regarded as dangerous for the environment. However, large or frequent spills may have hazardous effects on the environment. 21. Toxicity Based on available data the classification criteria are not met. Not determined. Not determined.	
Stort - repeated exposure Not classified as a specific target organ toxicant after repeated exposure. spiration hazard Based on available data the classification criteria are not met. Seneral information No specific health hazards known. The severity of the symptoms described will vary dependent on the concentration and the length of exposure. Inhalation No specific symptoms known. Spray/mists may cause respiratory tract irritation. Ingestion No specific symptoms known. May cause discomfort if swallowed. Skin contact No specific symptoms known. May cause discomfort. Seve contact No specific health hazards known. No specific symptoms known. May be slightly irritating to eyes. Acute and chronic health No specific health hazards known. No specific target organs No specific target organs known. Sectoxicity Ingestion Inhalation Skin and/or eye contact Sectoxicity Not regarded as dangerous for the environment. However, large or frequent spills may have hazardous effects on the environment. 21.1 Toxicity Based on available data the classification criteria are not met.	
Aspiration hazard Based on available data the classification criteria are not met. Seneral information No specific health hazards known. The severity of the symptoms described will vary dependent on the concentration and the length of exposure. Inhalation No specific symptoms known. Spray/mists may cause respiratory tract irritation. Ingestion No specific symptoms known. May cause discomfort if swallowed. Skin contact No specific symptoms known. May cause discomfort. Eve contact No specific symptoms known. May be slightly irritating to eyes. Note and chronic health No specific target organs known. No specific target organs No specific target organs known. Section 12: Ecological Information Not regarded as dangerous for the environment. However, large or frequent spills may have hazardous effects on the environment. 2.1. Toxicity Based on available data the classification criteria are not met.	
spiration hazardBased on available data the classification criteria are not met.Seneral informationNo specific health hazards known. Foxicity Based on available data the classification criteria are not met.	
evite textisity fish Not determined	
Acute toxicity - fish Not determined.	
Acute toxicity - aquatic Not determined.	
cute toxicity - aquatic plants Not determined.	
Acute toxicity - Not determined. nicroorganisms	
12.2. Persistence and degradability	
Persistence and degradability The degradability of the product is not known.	
2.3. Bioaccumulative potential	
Bioaccumulative potential No data available on bioaccumulation.	
2.4. Mobility in soil	
<i>lobility</i> No data available.	
Ability No data available. 2.5. Results of PBT and vPvB assessment	
•	

Other adverse effects	None known.
SECTION 13: Disposal consid	derations
13.1. Waste treatment metho	ds
General information	The generation of waste should be minimised or avoided wherever possible. Reuse or recycle products wherever possible. This material and its container must be disposed of in a safe way.
Disposal methods	Dispose of waste to licensed waste disposal site in accordance with the requirements of the local Waste Disposal Authority.
SECTION 14: Transport inform	mation
General	The product is not covered by international regulations on the transport of dangerous goods (IMDG, IATA, ADR/RID).
Road transport notes	Not classified.
Rail transport notes	Not classified.
Sea transport notes	Not classified.
Air transport notes	Not classified.
14.1. UN number	
Not relevant.	
14.2. UN proper shipping nam	
Not relevant.	
14.3. Transport hazard class(es)
Not relevant.	
14.4. Packing group	
Not relevant.	
14.5. Environmental hazards	
Environmentally hazardous substance/marine pollutant No.	
14.6. Special precautions for	user
Not relevant.	
14.7. Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code	
SECTION 15: Regulatory info	rmation
	onmental regulations/legislation specific for the substance or mixture
National regulations	 Health and Safety at Work etc. Act 1974 (as amended). The Chemicals (Hazard Information and Packaging for Supply) Regulations 2009 (SI 2009 No. 716). The Carriage of Dangerous Goods and Use of Transportable Pressure Equipment Regulations 2009 (SI 2009 No. 1348) (as amended) ["CDG 2009"]. EH40/2005 Workplace exposure limits.

EU legislation	 Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) (as amended). Commission Regulation (EU) No 453/2010 of 20 May 2010. Regulation (EC) No 1272/2008 of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures (as amended). Dangerous Preparations Directive 1999/45/EC. Dangerous Substances Directive 67/548/EEC.
	Dangerous Substances Directive 07/340/LEC.

Water hazard classification 0

15.2. Chemical safety assessment

No chemical safety assessment has been carried out.

SECTION 16: Other information

Training advice	Read and follow manufacturer's recommendations.
Revision date	06/10/2015
Revision	3
Supersedes date	02/04/2015
Risk phrases in full	Not classified.
Hazard statements in full	H360FD May damage fertility. May damage the unborn child.

This information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process. Such information is, to the best of the company's knowledge and belief, accurate and reliable as of the date indicated. However, no warranty, guarantee or representation is made to its accuracy, reliability or completeness. It is the user's responsibility to satisfy himself as to the suitability of such information for his own particular use.
