

SAFETY DATA SHEET DECOPATCH GLUE

Version : 2

Updating date : 25/07/2013

91/155/CE (2001/58/CE) – ISO 11014-1

1° IDENTIFICATION OF THE SUBSTANCE/ PREPARATION AND OF THE COMPANY

Product name : DECOPATCH GLUE

Application(s) and / or normal uses : Decorating, collage and paper varnish.

Product part number : PP150B

Fournisseur : DECOPATCH
6, rue Becquerel 69740 GENAS
France
Tél : +33 (0)4 37 59 80 00
Télécopie : +33 (0)4 3759 80 99
E-mail : info@decopatch.com

2° DANGERS' IDENTIFICATION

Main dangers : none

Specific risks : none

3° COMPOSITION / INFORMATION ABOUT COMPONENTS

Formula : 48-52% Water
48-52% Acrylat Polymer

Components entailing to dangers : None according to CE directives

4° FIRST AID

General advices : In any case of doubt or if any symptoms last, call the doctor. Don't let an unconscious person swallow anything.

Inhalation : If the person is unconscious, put him in recovery position and call the doctor..

Version : 2

Updating date : 25/07/2013

91/155/CE (2001/58/CE) – ISO 11014-1

Special methods :	Prevent effluents emanating from the firefighting from seeping into sewers or watercourses.
Special risks :	Exposure to decomposition products can entail risks for health. Appropriate respiratory appliances can be requested..
Special equipment for intervenents body protection :	Use a off-line respiratory appliance and a protection cloth

6° MEASURES TO BE TAKEN IN CASE OF ACCIDENTAL DISPERSAL

Individual precautions :	See section 8 regarding individual protections to be used..
Precaution(s)for environmental Protection :	Preventing any seeping into sewers or watercourses. If the product contaminates water sheets , rivers or sewers, alert the competent authorities according to regulatory procedures..
Cleaning methods :	Contain and collect leaks with not ignitional materials, like sand, earth, vermiculite, diatomee clay. Put the remnant in drums with a view to destroying according to rules in force (see section 13). Clean up preferably with a detergent.Avois use of solvents..

7° COMPOSITION / INFORMATION ABOUT COMPONENTS

Substances

No substance meets the criteria mentioned in the appendix II part A of the regulation REACH (CE) n°1907/2006

Mixtures

No substance meets the criteria mentioned in the appendix II part A of the regulation REACH (CE) n°1907/2006

8° STOCKING

Stocking

- Precaution(s) : Keep the container good closed.
- Stocking conditions : Opened bottles should be carefully closed again and put upright.
NOT FROST RESISTANT
- Uncompatible materials to move away : Keep away from any oxydizing agent and from strongly acidic or alkaline materials.
- Kind of material to be used for packing : The same as this of origin

Updating date : 25/07/2013

91/155/CE (2001/58/CE) – ISO 11014-1

9° CHECKING OF EXPOSURE / INDIVIDUAL PROTECTION

Technical measures : Assure an appropriate ventilation. The ventilation should be normally made by drawing up on working places.

Checking parameters :

- Exposure limit : Not implementable.

Individual protection :

- Respiratory tract protection : No need for individual respiratory protection equipment required.

- Hands protection : Avoid the continued contacts. After using, wash carefully your hands with tepid water by scraping the dried glue and wipe carefully your hands. DON'T USE any solvents or thinners.

- Skin and body protection : No working cloth is particularly recommended.

-Clothes protection : If any splash occurs on the clothes, wash it immediately with warm water. Some fibers may absorb the glue irreparably.

- Cleaning measures : Don't eat or drink when using the product

-Allergies : If subject to allergies, please consult a doctor before using
In case of allergy after using, please consult a doctor

10° PHYSICAL AND CHEMICAL PROPERTIES

General information :

- Physical state / Shape : milky
- Colour : off-white
- Smell : acrylic

Important information regarding health, safety and environment :

- PH : 8,5
- Point / Space of boiling : Undetermined.
- Point of flash : N /A
- Explosivity limits : Non implementable
- Relative density (water = 1) : 1-1.05
- Viscosity : Undetermined.
- Hydrosolubility : Soluble in the water
- Liposolubility : Insoluble.
- Solubility to solvents : No mixing possible.

11° STABILITY ET REACTIVITY

- Stability : The preparation is stable when handling and stocking under recommended conditions (see section 7)
- Material to be avoided : Keep away from oxydizing agents and strongly acidic or alkaline materials in order to avoid any exothermic reactions..
- Dangerous products of decomposition : Exposed to very hot temperatures, this product can emit some dangerous products of decomposition such as carbon monoxyd and dioxyd, fumes, azot oxyd.

12° TOXICOLOGIC INFORMATION

- General information : No data available about the preparation itself.
- Acute toxicity
- Inhalation : Non available data
 - Contact with skin : The continued contacts with the preparation can remove the natural fat of the skin. They can therefore provoke not allergic skin diseases due to contact and absorption through the skin ..
 - Contact with eyes : Splatters onto the eyes can provoke irritations and curable damages.
 - Ingestion : Non available data

13° ECOLOGICAL INFORMATION

- General information : No data available about the preparation itself.
Any seeping of the product in sewers or watercourses must be avoided.
- Effects on environment : No toxicologic effect on environment is known or can be foreseen in normal conditions of use..
- Miscellaneous noxious effects

14° REMARKS ABOUT DESTRUCTION

- Waste material / not used products : Don't dump into sewers or watercourses
- Contaminated packages : Waste material and used packages must be treated according to local regulations.
- Additional Information :

15° INFORMATION ABOUT THE FREIGHT

- General information : Not regulated.
- UN Number : Non applicable.

16° REGULATORY INFORMATION

Labelling :	The product is exempted from labelling according to CE directives dealing with the classification, packaging, and labelling of dangerous substances .
CE Number :	Non applicable.
Symbol(s) :	None according to the CE directives.
Sentence (s) R :	None according to the CE directives
Sentence(s) S :	2 Keep away from children. 29 Don't throw waste material in sewers. 51 Use only in good ventilated areas .

17° OTHER INFORMATION

Important opinions and remarks :	The working conditions of the user being unknown to us, the given information in the hereby data sheet refers to our current knowledge and is based on CE national and european regulations. It's always the user's responsibility to take all the necessary steps to meet all rules requirements and local regulations. The information given in this data sheet must be regarded as a description of requirements of safety related to our product and not as a guarantee of its properties..
Application(s) and / or normal uses :	Decorating, collage et paper varnish.
Restrictions :	This product must not be used for other applications as those here above specified without having been given before written handling instructions..
